WEEKLY ACTIVITIES & STATUS REPORT FOR THE DD/ICS--23 July 1986

CIPC Organizational Activities

- Arrangements for the CIPC meeting scheduled for 28 July at 1500 hours have been completed.

- Subsequent to your review, the background material preparatory for the meeting will be forwarded to the members.

25X1

- I met with [] on 17 July regarding his collection capabilities studies.

- It appears that the study is having trouble getting underway. Fred is still looking for a study director and staff support to undertake this task. He anticipates that it will take at least another month to acquire these resources. In addition, Fred thinks the study will take in excess of a year to complete.

- Moreover, the study is not focusing on future collection systems or systems mix. It will explore future technologies that could be converted into future collection systems.

- It was an interesting meeting!

25X1

- Steve, Ray and Tony are scheduled to meet with [] on Friday to discuss the Force Multiplier Study. This meeting is at Dennis' request, however, we do not know the exact specifics he wants to explore with us.

25X1

NFIP Support for Contingency Operations - []

- The interim report, which was prepared by [] and Paul, was dispatched to working group members on 17 July. Comments were requested by the next day. CIA, DIA, C³I, NSA, and Navy representatives did provide comments and proposed changes. The CIA representative requested that the report not request DDO to collect tactical intelligence, but to

provide more assistance to those that do. The NSA representative did not want to go on record supporting the NMIC as a focal point for Community coordination. He suggested that a senior ad hoc coordinating group chaired by DIA be created instead. The Navy representative was concerned that the report did not spell out up front that the intelligence organizations of the operating forces were primarily responsible for providing intelligence support to contingency operations and the Community's role was a complementary one. Instead of accepting the Navy's fixes, the statement that the relationship between the theater and national intelligence organizations was not addressed was inserted into the introductory section.

- Paul plans to follow-up his 21 July conversation with Capt Sheafer, J-2 CINCLANT, with a request for travel to CINCLANT as well as several other commands on the East Coast. The exact date and itinerary will be developed with other working group members. Earlier, the working group decided that to make any travel worthwhile, members should have a draft study in hand to discuss with the commands. In any event, it has always been the intent of the group to solicit views of the J-2s before presenting the final study to the CIPC. As you may recall, in April when [redacted] sent the TOR to selected J-2s for comment, he invited their active participation.

Intelligence Support to SDI - 

- The SDI Working Group is scheduled to meet on 22 July. All working group members have been asked to provide their written inputs by that time. This deadline will allow Carlos and Rich to begin drafting a strawman report based upon the inputs.
